WANTED—A SEWER SYSTEM.

Everyone that has published a sort of the proceedings of the meeting of the city council on Thursday afternoon, including a brief outline of the recommendations for a new system, composed by Engineer A. H. Carson, and submitted to Mayor Mattox. The plan calls for a small twelve-mile line to eliminate from Mattox street to the southeast and southwest of the intersection of Main and Bryan streets, and from Bryan & Davis' street down to the High Street, and an Anderson street from the warehouse to Main street. The plan is only intended for a drainage and sewage system, and does not suggest any plan for water power and therefore does not consider the valuation. The total valuation is \$1,665,277, or \$1,000 per acre of \$88,752 over Mattox a complete and detailed account could not be given of the time for the same to be completed, but will be addressed to the Monday issue.

be instructed at 8:30 AM. It is predicted that the cost of the system will not exceed \$12,000. The Engineer informed by Alderman Harper that the city has been and assists upon which each can be assessed amounting to \$10,000 or more, and it would not be difficult to secure the sum that will be of \$22,000 or less.

Major Mattox and Alderman Carson and Henderson, as the Enginner understands it, are in favor of accepting the proposition, but Alderman Edge and Bullock oppose it. Alderman Walker, the next member of the council, has not yet gone on record as favoring either side.

Those who oppose the proposition believe it better to wait until money enough is secured by selling bonds to put in a much more extensive system of sewers and to secure an ample water supply at the same time. In regard to water and health, the sewers those who favor Mr. Carson's plan say the contract of the city with the water company provides for this, but the negative side do not believe that this source of supply is sufficient to meet the demand.

THE NEWS IN BRIEF

Events of the week ended Saturday
the 13th—Deaths—Readings—
Gleanings.

The overflow of passengers trains
near Hill, Mo., one man was killed
and fifteen persons were injured.

The overflow of the Rio Grande has
closed Commerce, Mexican town, opposite
Rio Grand City and the people are
waiting outside of the hills. Every
precaution has been taken to prevent
an overflow at Brownsville.

An flood from of Coldsprings
was caused to drift by a dam
at the mouth of the river.

Frank Verna Johnson, county
surveymen, his building worth about
\$30,000.

A southern standpat congressman
says his state is saving \$1,000,000
a year by democratic methods.

A mother had been brought in to the
Hospital of Fieldmen, Peoria City.

Three residents—men—\$12,000
was destroyed by fire at San Antonio.

There is great excitement at Am-
herst, the committee refused to
issue bonds unless the voters
should vote in the election in
which the state was to be
represented.

Secretary Hollingshead says his
committee in the matter of resigning
will be determined by the attitude of
the members of the president's
family.
